## *Printable Ring Size Guide*

*Use a ring that already fits well and place it over the circles on the guide.*

*Match the circle to the very **inside edge** of the ring - not the outside.*

*This guide is designed to help you find the correct ring size by measuring a ring you or your partner already owns.*

*Simply print this page on A4 paper, making sure that **NO** scaling options such as “fit to page” or “printable area” are applied, so the measurements remain as accurate as possible.*
